

Robin,

Thank you for the lovely dinner last evening. Capo's is a terrific little place and look forward to going back when Bobby is singing - that must be the cherry on top of the sundae.

Also thank you for everything else you have done for me and for your advice on so many things I lost count. I don't think I would have been able to do this move and keep my sanity without you (especially with the day we arrived and Shelby's condition).

I value our friendship and look forward to its growth over many, many more years.

Love,  
Jane
